

Book Publishing Guide

IMPORTANT: The below guide is what we provide people who are interested in publishing their own book. It is not specific to any of our pre-written Credibility Books. Also, we are not responsible for any inaccuracies regarding self-publishing platforms, such as Amazon, as their terms and guidelines are subject to frequent changes. We strongly encourage you to conduct your own due diligence before proceeding with self-publishing a book or book a call with us to discuss your situation further.

Hey there!

We can all agree that handing a prospect your BOOK instead of a simple business card or brochure is substantially more impactful!

But why?

There are several reasons why but here are the main ones:

- Builds INSTANT credibility
- Positions you as the go-to expert
- Immediately separates you from your competition
- Gives you the ULTIMATE business card
- Provides you will a warm call follow up reason. Ex., “Did you read my book?”
- Predispositions the prospect to do business with you – especially if they actually read or at least review your book
- It replaces typical promotions items like pens, mugs, hats, golf balls
- You’re building your brand
- You’re building your reputation
- It feels AWESOME to have a printed book that has your name as the author!
- We could go on and on

Step-by-Step Formula

I refuse to overcomplicate this process. Its very simple and we’re going to keep it that way! So here is the easiest, quickest and best way I know how to get a printed book – with your name as the author – in your hands in less than 7 days!

1. Write your book or have it written
2. Create your book cover, have it created for your or use the printer’s book cover service
3. Upload book contents and order a proof copy

Very simple right? Sure there are a couple tiny steps within each one but this is so easy to do it will drive you crazy asking yourself, “Why didn’t I do this before?!”

Book Publishing Guide

Let's go through each step in a tad more detail...

Book Publishing Guide

Step 1 – Write Your Book or Have it Written

The first thing is you need to write your book or have it written. Well since you invested in this package you already have your book!! All you have to do is customize it and you're good to go.

Step 1 – DONE!

Step 2 – Create Your Book Cover

Next you need to create a properly formatted book cover. You can use one of the fifteen options we created for you. Or you have a professional do this for. Or you can use a service like Fiverr.com or UpWork.com. There are many providers that already have a catalog of book covers that you can choose from and then have them customize it for your needs.

Step 2 – Can be done in less than a day or two

Step 3 – Upload Your Book Contents and Order Proof

Next you need to find a reliable, trustworthy book printing service. I'm going to recommend two:

- <https://kdp.amazon.com/>
- www.48hrbooks.com

WARNING! FOR AMAZON KDP USERS...

If you plan to use Amazon KDP to publish your book you have to re-write at least 50% of your book.

Amazon KDP does not accept PLR books that are not significantly rewritten. That's actually a great thing.

NOTE: You can still use 48hrbooks.com if you want to use the book "as-is" – even though we highly suggest customizing it to fit your needs.

I'm not going to go into all the details about both services. If you would like to learn more about them I would encourage you to visit their sites so you can see for yourself which one is the best fit for you.

I will tell you that I use Amazon KDP for 99% of the time. I do this for a few reasons.

1. It's super easy!
2. It's super fast! I get a printed book in my hands within 7 days.
3. It's an Amazon company so I can choose to have my book(s) listed on Amazon if I want to. NOTE: for this book I do NOT have it listed on Amazon. Personally, I do not care if I sell copies of it. I use it for lead generation only.

4. Books only cost me approximately \$2.50 each. In comparison you would have to order 400 books to get a comparable price from 48hrbooks.com.
5. The quality is super high and they are very reliable!

You only need to upload two files to get your book printed and published with Amazon KDP:

- **IMPORTANT:** You need to convert each file into a PDF. The Amazon KDP site has all the details on how to do this properly.
 - The *Book Content* file. Be sure to customize this first and then save it to a PDF.
 - The *Book Cover* file. Be sure to customize this first and then save it to a PDF.

To get a clearer picture of how to use Amazon KDP or 48hrbooks.com please visit their websites.

Step 3 – Can be done in less than a week!

Some Common Questions

Inevitably there are some common questions you'll want to know the answers to. While I have personally published over 10 books – 3 of them were Amazon Best-Sellers - I am not an "expert" in the book publishing industry.

If you have specific questions regarding the self-publishing of your book please seek professional assistance.

With that said, here are my answers to a couple questions.

Do I need my own ISBN?

No. Technically you don't. Amazon KDP will provide one for you and you will STILL own all the rights to your book. I believe 48hrbooks.com will print books without an ISBN. If you're not looking to sell your book in book stores, etc and want to use it for the reason it was written – as a lead generation tool – then I wouldn't worry about it. ISBN's cost at least \$99 each and will just slow you do. NOTE: this is just my opinion.

Paperback or Hardback?

Paperback. Easier to handle and WAY cheaper. Even though I do love Amazon KDP's hardback option and use it for certain situations.

Do I have to use the same Fonts that you used?

Of course not! That's the beauty of this entire deal. There are no rules. Have fun with it! Make it unique. Make it your own. Put your personality into it.

Just do it!**

Here’s how we can do it for you...

The best way to see if we’re a good fit to work together is to schedule a short call with us. But don’t worry. There is no obligation and no pressure. And it’s definitely NOT a sales call in disguise.
